PROFESSIONAL PROFILE

Detail-oriented and highly motivated **BSc in Information Technology (Software Engineering)** student with a foundational understanding of manual testing methodologies. I combine a developer's mindset with a strong passion for **quality assurance, test case execution, and defect analysis**. Energetic and confident communicator with strong **interpersonal skills** and experience engaging with diverse groups of people. Skilled at presenting information clearly, **building rapport quickly**, and creating positive experiences through professional communication. My background in teaching has strengthened my ability to explain products or ideas clearly, persuade audiences, and maintain high levels of engagement. My work experience has enabled me to develop and practice essential skills, including **critical thinking** and **digital literacy**. I am reliable, adaptable, and enthusiastic about representing brands in a positive and professional way.

WORK EXPERIENCE

- English Language Educator – MPC Recruitment, Midrand, South Africa (June 2024 – January 2025)
- Delivered engaging lessons to students from different cultural backgrounds, strengthening public speaking and communication skills.
 - Built rapport quickly with new students and encouraged participation and confidence.
 - Presented information clearly and interactively to maintain attention and engagement.
 - Adapted communication styles to suit different audiences and learning needs.
 - Maintained a positive and energetic environment to improve participation and motivation.
